BOSTON APPLICATION SECURITY CONFERENCE

The bearer of this certificate attended the following presentation on **Saturday, April 5, 2025, from 1:00 PM to 3:15 PM** at the Microsoft Technology Center, 5 Wayside Road, Burlington, MA 01803.

WORKSHOP - How to Hack an Android App – Kirk Ireland

Agenda: A hands-on workshop demonstrating how to hack an Android app using free tools such as Frida. Throughout this workshop, we will demonstrate the tools and techniques commonly used to tamper with and reverse engineer mobile apps. We'll cover: - Overview and introduction to Android application landscape and target APK - Static analysis of APK to understand its structure and components - Dynamic analysis of APK using Frida to intercept and modify app behavior - Direct binary modification of the app's functionality - Mitigations Interactive elements: Participants will be exploring free tools to perform introductory Android app reverse engineering. Participation requirements: Bring your own laptop; this session will be hands-on and interactive.

Please retain this certificate as evidence of your attendance at this presentation and submit a claim for **TWO CPE CREDIT** in accordance with the guidelines of your certifying organization.
